

**MIDDLETOWN VETERINARY HOSPITAL
366 WARWICK RD.
MIDDLETOWN, DE 19709**

As part of our commitment to the well being of you pet, in providing the safest care, we recommend a pre-anesthetic blood screening. This is to ensure that the risk of anesthesia is a minimum by rulling out pre-exisiting internal problems (especially liver, kidney, blood) that may not be evident physically but could possibly lead to complications.

Pet's Name and Date _____

Client's Name and Contact Number _____

This blood screen is the same as that performed by your own physician prior to undergoing anesthesia. The results will also serve as a reference for future use should your pet become ill.

Healthy patients under 5 years of age: **Cost \$45.00**
BUN (Kidneys) Creatinine (Kidneys) ALT (Liver)
Glucose(Diabetes/Sugar) ALKP (Liver) Total Protein(Hydration)

Sick or patients over 5 years of age: **Cost \$59.00**
all of the above listed tests plus:
Albumin (protein) Phosphorus (Kidneys) Total Billirubin (Liver)
Amylase (pancreas) Calcium (tumors) Cholestrol
CBC (white/red blood cell count)

Please proceed with the recommended testing, and call me at the number listed with any abnormaliites.

I decline the recommended testing at this time, and request you proceed with anesthesia.

We also recommend a buster collar for your pet after surgery, this will prevent the animal from licking at the incision. The cost of the buster collar is \$15.

Please initial if you would like a buster collar for your pet _____

It is the perfect time to consider permanent indentification for your pet in case of emergency. We offer Res Q Pet Tracking system (microchipping) which can be applied during your pet's stay. Microchipping is an excellent tool to prove ownership and provides a resource for animal shelters to contact you in case your animal ever gets seperated from you.

In addition, we can offer to you a custom, double sided, aluminum tag which we will imprint with your name, phone number, and /or address, and your pet's name.

Please check and initial if interested:

Res Q Pet Tracking System **Cost \$41.50** _____

Custom tag **Cost \$7.00** _____
