PAIN MANAGEMENT PACKAGE

We at Middletown Veterinary Hospital strongly believe in the importance of pain management before, during and after surgical procedures such as: spays, neuters, declaws, lump removals, dental procedures, etc. We realize pets experience pain and discomfort during these procedures although they may appear unaffected. Pain management can help minimize your pets discomfort and speed the healing process. We offer a pain management package for your pet that will include an injection prior to surgery, analgesia with anesthesia and take home medication.

Canine Pain Management Package- includes a non-steroidal anti-inflammatory injection before surgery, analgesic anesthesia and appropriately sized tablets for at home use.

Dogs under 25 lbs	<u>Cost- \$18.00</u>
Dogs 25-50 lbs	<u>Cost- \$26.00</u>
Dogs over 50-75 lbs	<u>Cost- \$32.00</u>
Dogs 76-100lbs	<u>Cost \$36.00</u>
Dogs over 100lbs	<u>Cost- \$40.00</u>

Feline Pain Management Package- includes Torbutrol injectible before and during surgery, local ring blocks for declaws and Torbutrol tablets for at home use.

All Cats	<u>\$21.00</u>
